Jew Karl Marx Descended From Rabbis

Jews Founded Soviet Communist Party

For many years we have all read that, "Yes indeed, there were many Jews in the original Bolshevik Party which overthrew the Russian Czar. However the founder of the Communist Party - Lenin - was a Gentile." Now it has been revealed by Jewish sources that Lenin was a secret Jew!

When the first Congress of the Soviets met immediately after the revolution, on Nov. 7, 1917, the Jew Kamenev was elected its first President, Lenin became Premier, Trotsky was made Commissar of Foreign Affairs with Yakov Sverdlov

Economic Czar. Thus all five of the first founders of the Soviet Union were Jews.

The truth is that it was Jewish Marxists who seized control of Russia. Karl Marx was descended from a

Joe Slovo, Jewish head of South African Communist Party, controls (ANC).

long line of famous Rabbis. He said that much of the Communist bible, "Das Kapital" came from the Jewish Talmud. (Note read "The Talmud Unmasked" book for an inside look into the Jewish religion and why they hold such a vicious hatred for Christianity. See book list on page 11.)

South African Communist Party Run By Jews

Very few people realize that the secretive and influential South African Communist Party is a 100% Jewish run organization with the infamous Lithuanian Jew Joe Slovo in full command. They dominate Nelson Mandela's "African National Congress" ANC.

Everyone read about the 50,000 Negro ANC followers who marched on the independent black state of Ciskei and were shot at by local black soldiers. Some 24 people were killed. Now we learn that Communist Jews led this mob which sought to illegally storm the government buildings and seize power for Mandela's ANC. Note on this page the article praising the Communist Jews Kasrils and Suttner who led the blacks into the massacre. It is unfortunate that they were not among the casualties.

Obituaries Of Far Left

Obituaries are short but often reveal the whole story of a person's life.

Rep. Ted Weiss

Representative Ted Weiss, a Manhattan Democrat who for more than 15 years was one of the most outspoken advocates of liberal policies in Congress, died yesterday at Columbia-Presbyterian Medical Center in Manhattan. He was 64 years old and lived in Manhattan and Washington.

He died of heart failure, his office said.

A refugee from East European anti-Semitism, Mr. Weiss was both a product and a reflection of the West Side district that he represented.

Mr. Weiss was a liberal who crusaded in Congress for social programs and human rights and against increased military spending.

His district had been represented by Bella Abzug, and he proved to be nearly as strident

and single-minded in his pursuit of liberal causes. He received 100 percent ratings from the Americans for Democratic Action and zero ratings from the American Conservative Union.

Mr. Weiss, who was Jewish, was born in the Hungarian village of Gava, about 50 miles southeast of Budapest, on Sept. 17, 1927, the son of a butcher. His parents divorced when he was 7. Three years later, with anti-Semitism on the rise in Europe, his mother moved the family to South Amboy, N.J., where Mrs. Weiss's sister lived. Mr. Weiss's father, who remained in Hungary and survived a concentration camp, died in 1948.

Mr. Weiss mastered English within six months. In 1946, he joined the Army and spent 18 months in Japan, broadcasting news and sports for the Armed Forces Radio Service.

Lenin Was A Secret Jew

By Jesse Zel Lurie

The story of Lenin's heritage was discovered in the secret files of the Communist Party in Moscow. Lenin's grandfather, Alexander Blank, had been born to Jewish parents. When the parents died, Lenin and his brother were adopted by a Jewish family.

Another is Vladimir Ilyich Lenin. Yes, Lenin.

That the architect of the evil empire from which the suffering Slavs have yet to recover had Jewish grandparents is indisputable.

The documentary evidence was published recently in the *Moscow News*. It was largely ignored, for understandable reasons by the Jewish media. I am bringing it up to show the perils of attributing Jewish heritage to famous people.

The story of Lenin's heritage was discovered in the secret files of the Communist Party in Moscow. Lenin's grandfather, Alexander Blank, had been born to Jewish parents. When the parents died, Lenin and his brother were adopted by a Jewish family.

Lenin's Jewish ancestry was brought to Stalin's attention by his sister, Anna Ulianova-Yelizarov. In 1929, she wrote to Stalin that she would like to publicize it to combat the anti-Semitism. The leading Communists of Jewish ancestry — Trotsky, Kamenev, Zinoviev, Radek and many, many others.

He wrote to Stalin's sister that it would be best she kept her surprising news to herself.

She compared Lenin's "esteemed Jewish revolutionary spirit to the weak and massive Russian character." Since Lenin was revered by these Russian masses, she hoped to instill in them his "Jewish revolutionary spirit." She added: "I don't know what motive we Communists can have for hushing up this fact."

Stalin had every reason for hushing up Lenin's Jewish ancestry. He told his sister once again to keep her mouth shut.

This correspondence was found in the archives of the Communist Party. Lenin's Jewish ancestry is fully documented.

Jews Led Blacks Into Massacre

JOHANNESBURG — The African National Congress march that turned into a massacre on Monday in the black South African homeland Ciskei was led by two Jews.

Ronnie Kasrils and Raymond Suttner of the ANC, together with South African Communist Party Secretary-General Chris Hani, led the march of about 50,000 people, which was aimed at ousting Ciskei's military ruler, Brig. Oupa Gqozo.

At least 24 ANC protesters were killed and another 188 injured when Ciskei troops opened fire with machine-guns on the demonstrators in the homeland's capital, Bisho.

News reports from Bisho said Ciskei security forces opened fire when about 100 demonstrators, led by Kasrils, breached a corner of the border cordon and ran toward the soldiers. Neither Kasrils nor Suttner, both of whom are affiliated with the South African Communist Party, was hurt.

Kasrils, one of the most colorful figures in the ANC, lived in exile for 27 years, with his base in London. Suttner, a lawyer and academic, was a political detainee for most of his young adulthood.

Kasrils returned to South Africa in 1990, when the ban on the ANC was lifted, to find that his temporary indemnity had been withdrawn by the South African government. Nicknamed the "Red Pimpnel," he was on the run inside South Africa for many months, branded as one of the four most-wanted people of the ANC's military wing, Umkonto weSizwe, of which he is a former intelligence chief.

When in hiding he met with journalists, took refuge in affluent Jewish homes, and sent Rosh HaShanah cards to rabbis and Jewish leaders.

Kasrils grew up in the suburb of Yeoville, an enclave of religious Jews, where he became bar mitzvah.

Kasrils says he is proud of his Jewish origins and "never in my life have I for a moment allowed anti-Semitic remarks to pass. I feel very strongly that Jews should relate to all forms of oppression and racism."

Suttner, gentle and articulate, left the law school at the University of Witwatersrand to work full-time for the ANC in education.
