Høsten 1943 meldte seg til fronttjeneste:

Generelle opplysninger om føreraspirant-ordningen.

I en annonse i Fritt Folk aug/sept. 1941 ble ungdom anmodet om å søke opptak, og det ble orientert om betingelser og utdanning. Generalsekretariatet valgte ut 6 jenter og 7 gutter i alderen 16 - 21 år og disse ble innkaldt til Rådhusgaten 17 primo november, hvor Quisling og Fuglesang meddelte hvor de forskjellige ville bli plasert. Tjenesten startet samme måned med praksis i riksledelsen. For noen ble det undervisning i maskinskriving og stenografi ved Oslo Sprogskole. Sommeren 1942 ble noen sendt til fylkeskontorene. Hasselknippe og Stensvaag var med på propaganda-tur til Nord Norge. Sent på høsten 1942 ble Stensvaag og Strupe sendt til førerskolen på Jessheim for å hjelpe til med forberedelser for kurset som startet 6/1.43 sammen med annet opptak. Det ble undervist i følgende fag ved kurset: Norsk historie, norsk litteratur-historie, tysk, partilære, offentlig forvaltning, ervervsgeografi, sosiologi, raselære, finansiell læring, eksersis, gymnastikk og idrett, sang, "høvisk atferd".

Det var ansatt to faste lektorer ved skolen. De underviste i historie, tysk, litteraturhistorie. De andre fag var det tilkaldte forelesere som underviste i og varigheten var noen uker. Foreleserne var høyt kvalifiserte. Kurset varte fra 6/1 - 25/8.43. Siden dro alle sammen til Hermanstøl i Valdres og hjalp til å bryte opp en setervold. Vi lå i telt. Arbeidet ble ledet av Ottar M. Hansen.

Etter kurset på Jessheim dro noen til Tyskland (10 mann) og andre fortsatte med kontor-tjeneste. En mann og fire jenter begynte på Eidsvolds Landsgymnas.

Høsten 1944 skjedde et tredje opptak av aspiranter, -bare gutter. De startet på Jessheim førerskole og jeg antar at antallet var vel tyve. De var der til mai 1945. Det ble således ialt opptatt ca. 60 ungdommer.

Etter krigens slutt reagerte myndighetene slik på vår innsats:
Frontkjempere: 3 til 6 år.
De øvrige: 6 mndr. til 3 år.

Denne også føreraspiranter.
